

# ETHICS CHECK-LIST

As you are working on your assignments and exams (or any other kind of learning assessment that your instructor gives you), see if you can check off these four ethical tests:

1

## Gut Feeling

Is your gut telling you that the action you are about to take is indeed an ethical one?

Yes  No

2

## Values Test

Does your action indicate that you have integrated the values of honesty, respect, responsibility, trustworthiness, fairness, and courage into them?

Yes  No

3

## Standards Test

Do your actions uphold the policies outlined here:

**Scan Here:**  
SAIT's Academic Conduct 3.4.3  
Student Academic Conduct

Yes  No

4

## Exposure Test

If your instructor, parent(s), or the Office of Community Conduct were exposed to the action, would you be alright with that?

Yes  No

If you answer **“NO”** to any of the questions, then you might be about to make an unethical choice and should rethink about whether you should go through with this action or not.
